

ISSUE DATE July 14, 2011	EFFECTIVE DATE August 8, 2011	NUMBER *See Below
SUBJECT Bladder Relaxant Preparations Handbook Pages - Pharmacy Services		BY  Izanne Leonard-Haak, Acting Deputy Secretary Office of Medical Assistance Programs

PURPOSE:

The purpose of this bulletin is to issue updated Prior Authorization of Pharmaceutical Services Handbook pages for Bladder Relaxant preparations that include instructions on how to request prior authorization of prescriptions for Bladder Relaxant Preparations that require prior authorization, including the type of medical information needed to evaluate requests for medical necessity.

SCOPE:

This bulletin applies to all licensed pharmacies and prescribers enrolled in the Medical Assistance (MA) Program and providing services in the fee-for-service (FFS) delivery system, including pharmacy services to residents of long term care facilities.

BACKGROUND:

The Department of Public Welfare’s (Department) Pharmacy and Therapeutics (P&T) Committee meets semi-annually to review published peer-reviewed clinical literature and make recommendations relating to new drugs in therapeutic classes already included in the preferred drug list (PDL), changes in the status of drugs on the PDL from preferred to non-preferred and non-preferred to preferred, new quantity limits, and new classes of drugs to be added to or deleted from the PDL. The P&T Committee also recommends new guidelines or modifications to existing guidelines to evaluate requests for prior authorization of prescriptions for medical necessity.

DISCUSSION:

During the May 5, 2011 P&T Committee meeting, the P&T Committee reviewed the Bladder Relaxant Preparations class of drugs. As a result of that review, the Department is removing the exception for prior authorization for Ditropan XL for recipients 6 years of age to 18 years of age as that drug will be designated as preferred on the Preferred Drug list (PDL). In addition, the guidelines to determine medical necessity for non-preferred Bladder Relaxant Preparations were expanded to include contraindication or intolerance of the Preferred Bladder Relaxant Preparations. The recommended guidelines to determine medical necessity for Bladder Relaxant Preparations were subject to public review and comment and subsequently approved for implementation by the Department.

PROCEDURE:

The procedures for prescribers to request prior authorization of non-preferred drugs, preferred drugs that require prior authorization, and drugs not subject to the PDL that require prior authorization and for pharmacies to dispense an emergency supply of medication when necessary and without prior authorization are located in SECTION I of the Prior Authorization of Pharmaceutical Services Handbook. The Department will take into account the elements specified in the clinical review guidelines (which are included in the provider handbook pages in the SECTION II chapters related to specific therapeutic classes of drugs) in reviewing the prior authorization request to determine medical necessity.

The requirements for prior authorization and clinical review guidelines to determine medical necessity of Bladder Relaxant Preparations are included in the attached updated provider handbook pages.

As set forth in 55 Pa. Code § 1101.67(a), the procedures described in the handbook pages must be followed to ensure appropriate and timely processing of prior authorization requests for drugs that require prior authorization.
